

Foot Pedal
for MOLEY® Roll Slitter

Foot Pedal for stretching in material roll

With MOLEY® it's always a premium cut!

Foot Pedal for stretch-in

For optimized cutting quality, especially for soft materials or narrow reels.

Wrapping the material roll tightly ("stretch in") before cutting by winding an adhesive film spirally around it along the whole length increases the overall roll stability.

With the footswitch roll rotation is set in motion with the safety hood open and the stretch film is applied on the loaded material roll.

This function is also available as tape dispenser.

- Foot switch with stable but light safety cover
- Smoothly moveable on floor glides
- automatic machine stop upon release (tapping mode)
- Design/manufacture according to Eurostandard "CE"
- Function integrated in machine control *
- Connection via socket on the switchgear cabinet *
- Connection cable (range according to working width) with protective sheath
- Dimensions foot switch: L 300 x W(D) 150 x H 150 mm –
Weight: ca. 1,5 kg

* **Standard equipment - can be retrofitted to older machines – also suitable for other handling equipment**
