

Counter-disc

for narrow cuts / small reels

Counter-disc (prevents telescoping)

With MOLEY® it's always a premium cut!

Counter-disc

Prevents the telescoping/collapsing of narrow reels during cutting.

Counter holding plate of plastic/aluminum with safety-locking device for cardboard core or roll diameter as required.

Easy to use – fast and easy mounting: the open disc is put around the shaft on the free end of the loaded material roll and locked.

The strong fastening clamp holds the counter-disc securely in position. Even smallest reels of loosely wound fabrics are upheld safely – telescoping or collapsing is reliably prevented.

A must-have accessory for daily practice .

- Solid and easy to handle – can be mounted on shaft after loading of material roll.
- Available for all roll diameters, for large diameters in perforated execution (weight reduction)
- interchangeable inserts for different core inside diameters .
- Design / Manufacture according to Eurostandard "CE"
- Weight (for roll Ø 400 mm – PKØ; 50/76 mm) approx. 1.0 kg
